

CNC Milling Machine VMC21

Machine Features:

- Mainly as a starting point to provide users easy and intuitive operation of the new CNC operation.
- Applicable industries: A good helper for parts production, R&D proofing, repair, and school teaching.
- Light weight, does not occupy space, suitable for various occasions.
- Compatible with the processing programs of major brand controllers, and can execute CAD/CAM NC programs, which are suitable for mold cutting, drilling, tapping and machining.

Controller function :

PC Monitor Operation

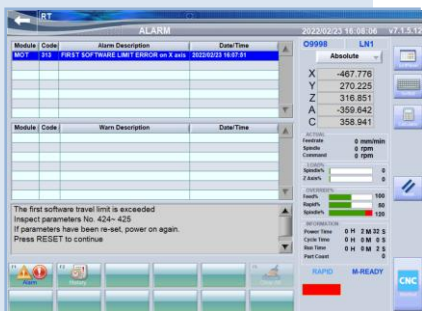

Conversation Cam

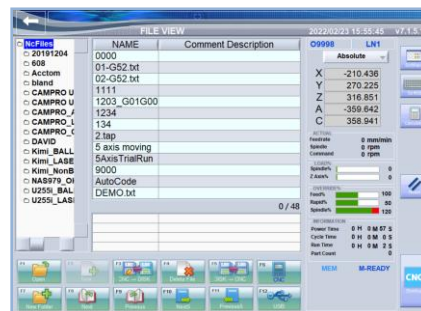

Tool Settin

Troubleshooting Navigation

G54 coordinate system setting

File Management

Made in Taiwan, quality assurance.

Specification Table

Item		Specification
Table size	mm	450 x 190
T slot	mm	3 x 12
Max. table load	kgs	20
X/Y/Z axis travel	mm	200 x 200 x300
Distance from spindle nose to work table	mm	50-350
Distance from spindle center to column	mm	220
X/Y/Z axis server motor	kw	X/Y 0.4 / Z 0.4(with brake)
G00 Rapid speed	m/min	15
G01Cutting feed	m/min	1-10000
Spindle type:		ISO25
Spindle transmission type		Belt
Spindle motor	Kw	0.4
Spindle speed	rpm	5000
Drilling capacity	mm	Φ 6 (Aluminum6061)
Tapping capacity	mm	M6 (Aluminum6061)
Armless Magazine	cm	8 Tools
Air pressure requirements	Kg/cm ²	6
Power		3Φ 220V / 15A
Machine net weight	kg	500
Machine size (L x W x H)	cm	90 x 80 x 160
Machine packing size (L x W x H)	cm	95 x 85 x 165

※ The company reserves the right to revise the contents of the specifications, subject to change without prior notice.

Standard accessories		Option accessories
1. Full cover + Cooling system	6. Work lamp	1. Tool length measurement 2. Air pressure vise 4"
2. Moveable MPG.	7. Warning Light	
3. PC monitor+ keyboard+ mouse	8. Operation Manual	
4. ISO25 tool holder *2	9. Operation Manual	
5. Air gun
